VOLKSRAAD IS CLOSED.

Vacant Soats of Generals Joubert and Decock Decorated.

EULOGIZED BY PRESIDENT KRUGER

The Head of the South African Republic Says the Finances Will Enable Them to Bear the War Expenses.

Pretoria, May 8.—The official closing of the 1899 volksraad, which broke up unofficially in September last, just took place. The vacant seats of General Joubert and General Decock and others were filled with flowers. The hali was crowded, a large number of ladies heing present. In the prayer of the chaplain, an allusion to General Joubert moved many to tears. After the prayer the raad adjourned to the afternoon, when the session of 1900 was inaugurated. The ccremonies were accompanied by the customary salute. President Kruger arrived in the state carriage with the usual escort. Ail the diplomatists and foreign attaches, including General Gourke, the Russian attache, were present. The raadzaal was crowded to its fuliest capacity, and the scene was most impressive.

President Kruger, in his speech opening the session, aliuded feelingly to the vacancies. Referring to General Jouhert, he said: "Future generations will be able to judge the work of the deceased, whose demeanor inspired the enemy with respect and whose humane and brave conduct gave fame and importance to the state among civilized nations."

He was profoundly struck, he said, by the proof of sincere friendship given by the people of the Free State, who had fulfilied their obligations to the Transvaal under the treaty. They realized that a united front was required as an attack upon the independence of the Transvaal meant a threat against the Free State. He had implicit confidence on the future of the Afrikander

By deeds, the Free State had shown, the president declared, a good example to the people of the Transvaal, which had proved of great moral value to those guiding the efforts of a smail state to maintain its independence. He was pleased to say that the relations of the Transvaal with the foreign states, with the exception of Great Britain, were good.

After referring to the peace proposals of the presidents of hoth republics to Lord Salisbury, President Kruger said: "We have proved by legislation and our doalings with Great Britain last year that it was our desire to preserve peace, and now that war has broken out, we will do everything to restore peace."

After alluding to the deputation now on a mission to Europe and the United States, and the presence of so many attaches, proving the intense interest of the powers in the republics and to their methods of fighting, he said he was pleased to see that the sympathy of the world was on their side in the war, that ambulances had been sent, and that their friends were united in doing everything to alleviate the distress caused by the struggle.

After reference to the alleged violations of the Red Cross and to protests of foreign powers, President Kruger continued: "Notwithstanding the difficult circumstances, I am glad to say that our finances will enable us to hear the great expense of the war, and that the mines are flourishing."

The president concluded with a reference to the Free State Loan and suggested that the session be not prolonged, and that only matters of importance be deait with. In a moving peroration he invoked the blessing and help of Almighty.

The proceedings terminated with unusually impressive speeches and prayers. Fifty out of a total of 60 legislators were present, several of them still suffering from wounds.

WEEKLY CROP BULLETIN.

Damage by Last Week's Frost Not Very Great-Outlook For Wheat, Corn and Tobacco.

Dry, cold weather prevailed until the last of the week when the temperature rose, the week closing with warmer, showery weather. On the morning of the 4th frosts wore quite general over the State, except in the extreme western portion; in the central and eastern portions some tender vegetables were injured, but the damage was not important. No damage of any importance occurred to the fruit crop from the frosts. It was too cold and dry for crops to make much progress, but they are still in good condition and the showers and warmer weather at the close of the week will put everything ahead rapidly. Excellent progress was made in farm work during the week and is now well up.

Wheat is still in fine condition. Corn is coming up slowly, and has not advanced much except in the west portion. Tobacco plants have not done well, and in some localities have been attracted by insects. Potato bugs are numerous. Oats are looking poorly and will make only a light crop in many localties. Gardens were at a standstill during the week. Grass and clover made very little progress in the central and eastern portions, but did better in the western. The fruit crop bids fair for a good yield. Strawberries are expected to be ready for market by the 12th to 15th.

MRS. ELEANOR DUNCAN WOOD, wife of County Clerk Clarence L. Wood, is the author of a very quaintly written short story in the May number of The People's Monthly, a magazine published at Philadelphia. It is a tale of "Ye Olden Times," when Virginia was young, and weaves a romance about that incident in its early history when the planters secured wives by paying for their passage from England. Old Mason has cause to be proud of this talented daughter. Mrs. Wood has been a contributor to various magazines for several years, and the story referred to above was written at the request of the publisher of The People's Monthly, who was acquainted with her work as a writer.
